SEC. DANIELS INSPECTED SHIP YARDS

Says Labor Is Just As Brave and Is As Necessary As Men at the Front--Mrs. Daniels Christened Destroyer at Fore River

(By Associated Press)
Quincy, Mass., April 20.—Secretary of the Navy Daniels today inspected the plants of the Bethlehem Shipbuilding Corporation at Fore River and Squantum in company with Mrs. Daniels, Governor McCall and other guests who witnessed the launching of one of the latest types of destroyer at Fore River. Mrs. Daniels christened the vessel. After the destroyer had been launched the shipbuilders called on Mr. Daniels for a speech. "The most gratifying thing about this war," he said, "is that here the men of all callings have been ready to make whatever sacrifices the authorities have asked them to make. The men who are turning out destroyers and munitions are just as brave as men who are at the front. American labor in America understands that it depends for its life and progress upon overcoming German autocracy. In this war, Mr. Daniels explained what could be accomplished by co-operation between employers and workmen. He announced that the new destroyer had been christened the "Bell" in honor of Rear Admiral Henry H. Bell, Ad-

miral Bell commanded a division of the U. S. fleet under Farragut in the Civil war. After inspecting the plant Mr. Daniels' party was taken to the Squantum works under the guidance of the superintendent. Mr. Daniels laid the keels of five destroyers.

ANOTHER AMERICAN SHIP SUNK

(By Associated Press)
New York, April 20.—Word has been received in shipping circles here that the American steamer Florence, formerly on the Great Lakes, has been sunk with loss of life near a foreign port by an enemy submarine. The Florence was one of the vessels that was put in two and rebuilt to permit of passage to the sea through the Erie canal.

Advance Defences at Givenchy and Re-establish Positions--Drive Back Enemy in Sharp Fighting Southeast of Rebecq--Capture Machine Guns, Trench Mortar and Prisoners South of the Scarpe River--French Repulse All Attacks Southeast of Amiens

NEW BAN ON ENEMY TRADING

(By Associated Press)
Washington, April 20.—Revised enemy trading lists contained more than five thousand names, and for the first time including enemy firms in the neutral countries was issued today by the War Trade Board. It was established in conjunction with Great Britain and France to unify the efforts of the allies to keep their products from reaching the enemy.

THE WEATHER

Forecast for Portsmouth and Vicinity--Probably rain late tonight and on Sunday; warmer, moderate east to southeast winds.

Read the Want Ads every day.

(By Associated Press)
Field Marshal Haig's troops took the aggressive last night on the southern side of the Lys battle front with quick and decisive results. They compelled the Germans to give up the small bits of ground in the Givenchy-Festubert sector which were all the enemy had to show for his costly all-day attack of Thursday on this front. The only offensive action on the German side reported from the British front was in the Rebecq region near the westerly tip of the Lys Salient southwest of Merville. The enemy made no successes in this local operation, the British driving him back to his position. There is possible significance in raiding operations carried out by the British south along the line below the Scarpe just to the southeast of Arras. Apparently it was a feeling out operation to discern what forces the Germans had ready for an attack in this region. It resulted in the taking of prisoners and a collection of machine guns and trench mortars.

A German counter attack was repulsed. It seems not improbable that the enemy will again essay a drive around Arras although he failed signally there in the early stages of the battle. In the sectors of the southern battle front held by the French there was a continuation of the heavy artillery action between Lassigny and Noyon toward the French right flank. Lassigny and Noyon.

The only infantry operation was a raiding attempt by the Germans near Hangard, southeast of Amiens, in which the advantage was with the French who took prisoners including an officer.

(By Associated Press)
London, April 20.—Nine machine guns, a trench mortar and prisoners were taken by the British in a local operation yesterday south of the Scarpe river, the War Office announces. A German counter attack was repulsed. On the Flanders battle front the British ejected the Germans from advanced positions gained by them in Thursday's attack in the region of Givenchy and Festubert. The British gained all their objectives in their counter attack in Flanders, advancing their defences at Givenchy and Festubert and re-establishing their positions. In sharp fighting southeast of Rebecq the British drove back German attacking parties.

Paris, April 20.—German troops last night launched a raiding operation against the front line in the region of Hangard-en-Santerre southeast of Amiens. The effort was a failure, the War Office announces today. The French took prisoners in this local action. The artillery has been active along the southern battle line between Noyon toward the French right flank. Lassigny and Noyon.

BOLSHEVIKI REQUISITION MUNITIONS

(By Associated Press)
Harbin, Manchuria, April 20.—Orders from the Bolshevik government have been received here to ship all the munitions concentrated at this port for the use of the Russian army in the earlier years of the war to European Russia. The supplies include shells, steel, railroad supplies, cartridges, powder and some food. The order stipulates that all passenger and freight traffic shall be suspended until the munitions are received at destination.

MORE RESERVES SENT TO JAPANESE

(By Associated Press)
London, April 20.—Order to the anti-Japanese sentiment that is assuming a turn that is warring the officials that are in charge of the forces that are protecting the foreign colonies at the boundary lines, further reinforcements of British marines have been ordered to join the English and Japanese forces at various points.

THIRD LOAN OVER BILLION

(By Associated Press)
Washington, April 20.—Subscriptions to the Liberty loan has reached

\$1,238,098,950, the Treasury announces.

Boston, April 20.—New England Liberty Loan subscriptions reached a total of \$113,726,000 today with the tabulation of overfield returns showing a decided slump because of the holiday yesterday in Massachusetts and Maine. The report by states was: Massachusetts, \$68,532,000; Connecticut, \$17,385,000; Rhode Island, \$11,651,000; Maine, \$6,341,000; New Hampshire, \$5,253,000; Vermont, \$3,112,000. In percentage of allotment subscribed, Maine and Connecticut were virtually tied, Maine with a record of 54.5 had half a point lead, while N. H. stood third with 52 per cent.

THIRD FIRE IN TWO WEEKS

(By Associated Press)
An Atlantic Port, April 20.—For the third time in two weeks a fire, of a mysterious source was discovered on the former Holland liner Rhinodon that was recently taken over by the American shipping board. This fire was confined to the hold of the vessel and caused only slight damage.

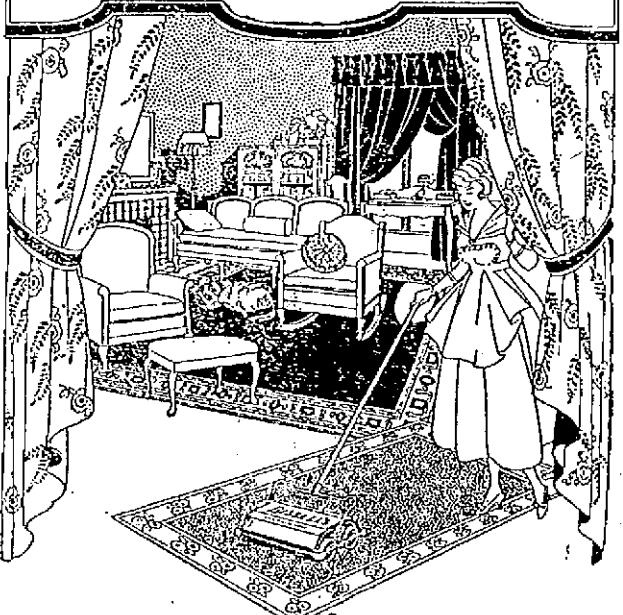

POLICE COURT

The continued case of Amelia Dinduck against Peloski Behnchuck was checked out of court today by Judge Gupill. Amelia and Peloski were in a scrap on Russell street on Tuesday last and Peloski was made a defendant in the case on a warrant issued by order of Amelia. In the meantime several witnesses were subjected to cross-examination for today's session. The court ordered the case not pressed and there was much disappointment in the ranks of both sides.

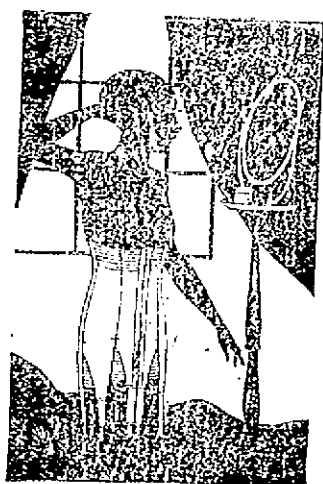

BRITISH ADVANCE 1500 YARDS

(By Associated Press)
With the British Army in France, April 20.—The British advanced their lines on a front of over 1500 yards near the Arras sector during the night and repulsed several violent enemy attacks that were intended to envelop the advanced positions. Later the line was relocated. The great German drive seemed, for the moment at least, to have come to a complete standstill yesterday. One possible explanation is that the Germans have become exhausted and their available reserves so much used up during their tremendous exertions of the past four weeks that they do not dare risk further sacrifices in assaults against the allied lines. Another possible explanation is that the Germans are holding up their attacks until they can bring up more of their heavy guns, the allied lines having been stiffened so much by the arrival of the French reserves that the full strength of the German artillery arm will be needed to give any promise of Teuton success. Miss Edith Chelson of the Armstrong cafe left today on a visit to Belgium and New York city.

GUNS THAT HIT PARIS SILENT NOW 18 HOURS

Paris, April 19—The long range guns with which the Germans have been bombarding Paris have been silent now for 48 hours. There is reason to believe this is the reason of new methods of counter fire on the super-guns by French artillery.

From what has been accomplished already, it is hoped that the activity of the German battery at Crepy-en-Laonnois, 12 1/2 miles from Paris, may at least be rendered much more difficult.

SEE PROSPERITY FOR MANY YEARS

(By Associated Press)

Cincinnati, Ohio, April 20—"We shall see such an increase of the world's wealth as will go far to compensate for the appalling destruction which the past four years have witnessed," asserted James A. Farrell, president of the United States Steel Corporation in an address he delivered here tonight at a dinner in connection with the annual convention of the foreign trade council. Mr. Farrell declared that the United States and her allies would emerge from the war victorious.

Speaking on "Foreign Trade Aspects," Mr. Farrell said that the phenomenal wealth accumulated from the use of our mines, mills and forests in the aid of the allies before we joined the common cause, had been justly swallowed up in the military expenses of the first year of our participation in the war.

The gigantic task confronting the United States, he said, was not only that the allies must be protected against defeat and the continuance of our own national existence insured, but that "our great resources should be fully utilized for the restoration of the decadent industry of shipbuilding."

Predicting a long period of industrial prosperity after the war, the speaker said "America it may be hoped will maintain the position of offering to the world all its requirements which can be supplied here on terms and conditions that are fair and just. There is no evidence of any intention to take undue advantage of our economic and productive strength, and we shall in the future be as little disposed to turn to personal profit the necessities of a war-worn world, or the exceptional influence of our position as exporters and importers."

America's foreign trade, both export and import, said Mr. Farrell, is now inevitably restricted to transporting our armies to France and keeping them and our allies supplied with food and munitions.

"There are, however," he asserted, "certain commodities procurable from overseas countries, which are essential to the successful prosecution of the war. We consequently need meat, rubber, coffee, cocoa, hides and man-ganese ore from Brazil; wool, meat, hides and wheat from Argentina; copper, tin and rubber from Bolivia; antimony, copper, wolfram, tungsten and other ores from Chile; tin and rubber from the Malay Peninsula; jute and lute bags from India; and that the United States must furnish the ships to carry these products."

The speaker also expressed the belief that after the war, Germany would become "a potent competitor for the markets of the world as she was before" and that the people of the United States, therefore, must immediately mobilize their surplus resources.

"As we have willingly devoted our lives and our fortunes to the cause of the Allies who have already given most of their wealth to carry on, in our behalf as in their own, this Titanic struggle for liberty," said Mr. Farrell, "it would be a natural corollary to this joint enterprise that there should evolve at the end of the war a definite plan of international co-operation in the financing of foreign enterprises."

(By Associated Press)
Washington, April 19.—Detailed reports of the part the American Engineer took with the British in repulsing the German heavy attack, is made by Gen. Pershing and made public to-

night. How two regiments and battalions of British held the British line against the repeated assault of the Germans from March 23 to April 7. Gen. Pershing has received a communication from Gen. Rawlinson highly praising the Americans for the part they took. The casualty list shows 20 killed in action, one died of wounds, and 52 wounded with 15 missing, many of whom will probably be found with British divisions.

TO MAKE NO CHANGE IN CASUALTY LISTS

Washington, April 19.—The general staff has rejected the proposal that it adopt the Canadian system of publishing before each name appearing on the daily casualty list the military number of the soldier who has been killed, wounded, reported missing. Major Swing, aide to Maj. General Peyton C. March, acting chief of staff, said this morning that for the time, at least no change would be made in the casualty lists which have been so severely criticized since elimination of addresses. While Major Swing did not say why the general staff rejected the Canadian system, it was learned from a most authoritative source that Secretary of War Baker and his advisers feel that it is impracticable, if not impossible, to employ the American numbering system for the purpose of identifying men in the foreign service.

Major Swing said the staff officers were agreed that they should support General Pershing, who made the recommendation that addresses be stricken from the lists. These officers point out that relatives always are notified but admit that there is delay at times in delivering the telegrams sent out by the War Department and that the telegrams give no information to friends outside the immediate family. Dissatisfaction with the present casualty lists is increasing. It is probable the pressure will compel the department to make a change. The subject has been brought directly to the attention of Secretary Baker since his return from abroad, members of Congress have urged upon the Secretary the necessity of making a change and a delegation of Washington correspondents, many representing Administration papers, have protested in the names of their papers.

MOVE SCHOOL CHILDREN FROM DANGER

Paris, April 19.—Arrangements are being made to send the children of the Paris primary schools to the provinces to protect them from the enemy's long range bombardment. The question has frequently been asked whether the Paris theatres and places of amusement ought not to remain open, provided proper measures are taken to assure the safety of the public and the artists employed. The views of the directors themselves are overwhelmingly against closing.

Tell Your Wife Corns Lift Off

Doesn't hurt a bit to lift corns or calluses off with fingers.

Not a single drop of pain or soreness before applying, or afterwards. This may sound like a dream to corn pestered men and women who have been cutting, rifling and wearing torturous plasters. Yeal Corns lift off and calluses peel off as if by magic.

A small bottle of freeze-one costs but a few cents at any drug store. Apply a few drops directly upon your tender corn or callus, and instantly the soreness disappears; then shortly the corn or callus will be so loose that it lifts off. Freeze-one dries instantly. It doesn't eat out the corn or callus, but just shrivels it up so it lifts away without even irritating the surrounding skin. Women should keep a tiny bottle handy on the dresser and never let a corn or callus ache twice.

BIG INCREASE FOR MARINE CORPS

Washington, April 19.—Increase of the Marine Corps to 75,000 men and direction that a major general of marine accompany the marines to the front in Europe, were agreed to by the House Naval Affairs Committee today as an amendment to the naval appropriation bill. This action was largely a result of a fight made by Representative Britton of Illinois.

A committee amendment provides for a major general of marines, beside the present major general commanding, who would be available for service overseas. The present major general would remain as administrative head here, Secretary Daniels favored increasing the present strength of 20,000 marines to 62,000, but Major General Barnett, commanding the marines, asked for 75,000, and the committee voted unanimously in favor of his request. It was said that with this increase in the corps it would be possible to spare 45,000 or 50,000 marines for service at the front.

The committee also agreed to an appropriation of \$377,000 for purchase of additional land at the Great Lakes Naval Training Station at Chicago, to make it the largest station of its kind in the world.

RED CROSS NEEDS MORE WORKERS

A meeting of the Executive Committee of the Portsmouth Chapter of the Red Cross was held at headquarters at the Ellis Home on Friday afternoon and considerable business disposed of. The report of the Civilian Relief Committee, which has charge of all aid to the enlisted men's families in securing allotments and insurance, shows that the work of this committee is increasing every day and that it falls principally upon Mrs. C. A. Hull, the General Secretary of the Organized Charities, who devotes more than half of her time to Red Cross cases. Up to this time the overhead

expense has been borne by the Organized Charities and it was voted to share the expense of the work with the Organized Charities.

Dr. J. H. Neal was appointed a Red Cross First aid instructor and Dr. F. S. Towle an examiner.

Mrs. Mark H. Anthony was appointed chairman of the Canteen Committee, the Chapter having received orders to appoint a canteen committee and to organize for emergency work.

Mrs. Ernest L. Chaney has been appointed Chairman of the Surgical Dressing department of the Work Room, Mrs. E. S. Daniels having resigned owing to illness in her family.

It was announced that Portsmouth Chapter's quota for the Red Cross fund drive to be held from May 20 to 27, has been set at \$16,500. Mr. Frederick M. Siso has been appointed County Chairman for this drive and a local chairman will be appointed later.

It was brought out that there is great need of many more women to work on surgical dressings or hospital garments in the Red Cross Work Room in the Ellis Home. There are a certain number of women of this city and many yard who have been faithful and patriotic workers, but there are a greater number who are just plain "hangers" when it comes to doing Red Cross work. The work room is now in need of more workers, and because at the request of General Pershing, the surgical dressing must be more than doubled and this city to get out its quota of the work must have the assistance of a hundred or more women. The same applies to the night surgical dressing on Tuesday evenings, and it is a noticeable fact that out of all of the young ladies employed on the navy yard, and in other government jobs but a few can find time for this very patriotic work. Everybody is welcome, and a few hours work is better than none at all.

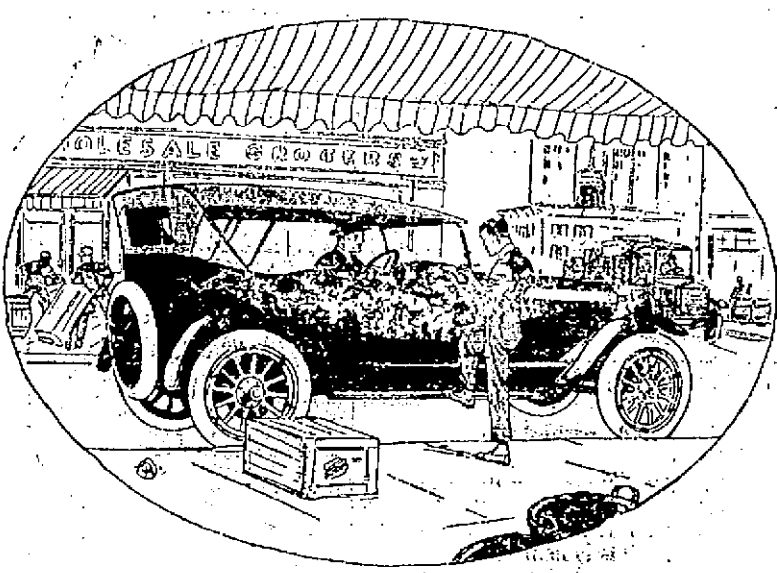

ARRESTED FOR BOOTLEGGING

John Griffin, living at the North End, was arrested Friday afternoon for giving liquor to enlisted men. Griffin was caught by officers Weston and D. J. Kelley passing over a bundle to a marine. In the bundle there were three bottles of liquor. Both were brought to the police station and Griffin will be taken to Concord today for a hearing before the U. S. Commissioner. This is Griffin's second offense.

The Most Beautiful Car in America

The Final Proof of Quality

In these days a man must exercise intelligent judgment in the administration of his personal affairs. When he buys shoes, he must buy good shoes—for the very simple reason that poor shoes are frightfully extravagant. When he buys a motor car, he must buy a good car—for the same reason.

If you care to make a little investigation of the used car markets, you will discover the final proof of Paige quality. For it is a matter of record in fifteen of the principal cities that Paige used cars bring a higher price proportionate to first cost—than any other American automobiles.

CASUALTY LIST GROWING

(By Associated Press)
Washington, April 19.—The casualty list as given out today shows 42 names, seven of whom were killed in action, eight died of wounds, two of disease, six were severely wounded and 17 missing in action. Missing in action were Lieuts. Robert H. Rhatt and Morris T. Turner Jr.

Complete Satisfaction Cannot Be Bought For Less

To pay less is to risk the loss of efficiency, comfort, modernized improvements, beauty of design, or long-lived service.

It is simple to handle, has narrow turning radius, and easily operating clutch.

It is comfortable with spacious interior, wide seats, deep upholstery, rear cantilever springs, 100" wheelbase, large tires, non-skid rear, and Auto-Lite starting and lighting.

The absence of any one of these essentials robs you of maximum value, usefulness and satisfaction.

Successful men do not waste their time and energy in getting around—thousands use this Model 90 and save their vitality for the doing of more things in less time.

Should Carefully Avoid Discourtesy.

The Liberty Loan drive is going along well in all parts of the country. Numerous cities and towns have already filled their quotas. In others further effort is necessary to induce the people to do their full duty. This is being put forth with highly encouraging results and there is no doubt that the \$3,000,000,000 called for by the government at this time will be raised, and more, too.

That there are some places in which subscriptions are not coming in quite as fast as could be desired is no occasion for surprise. The people have already responded to two previous calls of this kind, in addition to calls from the Red Cross and other organizations, and without doubt there are many individuals who are beginning to feel the strain. But, on the whole, the responses are numerous enough and generous enough to foretoken the complete success of the drive, and the thing to do is to continue the work patiently, persistently and politely.

That there have been instances in which the bounds of politeness and good judgment have been overstepped is a fact greatly to be deplored. Nothing will be gained in the long run by attempts to coerce subscriptions to the Liberty Loan. But if newspaper reports are to be relied upon there have been such attempts. It is stated that a number of factory operatives in a New England city have been discharged for failure to subscribe, their employers and fellow workers jumping to the hasty conclusion that they were pro-German. In another New England city a man who did not feel able to take a bond was called a "slacker." He has a wife and children to support and nothing but his wages to support them with, and his feelings were wounded by the unjust imputation. He had been buying thrift stamps from time to time as he had the change to spare, and, smoldering under the gratuitous insults to which he had been subjected, he counted up his stamps when he reached home and found that they represented an investment of \$110, which is by no means a bad showing for a working-man with a family to support.

It will be well for solicitors everywhere to avoid harshness and the imputation of wrong motives. It is to be assumed that every man and woman knows best what he or she is able to do toward stocking the "war chest," and enough will have been done when they have been invited to subscribe and shown why they should do so if able to.

To go beyond this will be not only bad manners but poor business. Men and women in charge of the collections should be very careful not to give offense or wound the feelings of sensitive people who may have reasons for not investing which are no concern of the public's, and which by no means evidence a spirit of disloyalty.

The old truism, "More flies can be caught with molasses than with vinegar," should be borne in mind by all Liberty Loan solicitors. Above all things should anything smacking of coercion be studiously avoided, for that is the one thing which no self-respecting American will tolerate for a moment.

The problem of housing the families of mechanics who have been called to Portsmouth and vicinity by war activities is at last receiving the attention it deserves. The meeting of citizens held a few nights ago at the call of Mayor Ladd was of the right sort, and it is to be hoped the subject will be followed up until there are tangible results.

Manager Shattuck states what the people of Portsmouth and vicinity are glad to hear when he declares that the Newington shipyard is to be a permanent institution and not a mere emergency industry. And there is reason to believe that Manager Shattuck knows what he is talking about when he makes this statement.

In the room of a machinist who recently died in a New York lodging house was found a bankbook showing deposits of more than \$19,000. The discovery occasioned some surprise, but the only wonder is, in view of the pay machinists are getting today, that the pile wasn't bigger.

The appointment of Judge Oscar L. Young of Laconia as attorney-general by Governor Henry W. Keyes will give complete satisfaction and meets the approval of the citizens generally. He is young and a good lawyer and will make good.

The second draft men will soon be off for the camps. The quota of the Portsmouth district is 33 men and they will be ready when the time comes. Until the war is ended there will need to be a steady flow of men to the front, and there will be.

The few obtuse individuals and newspapers that persist in questioning the title of the Portsmouth navy yard to its name are welcome to all the satisfaction they can extract from the silly practice.

We Can Respect Steuben
 (From the Brooklyn Eagle)
 Farewell to Frederick the Great's statue in Washington! He has gone to the cellar of the War College in several pieces and all the Kaiser's horses and all the Kaiser's men will not put him together again. Old Baron Steuben is a German of another stripe and we let him stand.

Cuba's Fruitful Fields
 (From the New York Commercial)
 In spite of German plots to burn sugar-cane fields in Cuba the crop has proven to be the largest on record. Cuba is prosperous and contented, thanks to the American Government's moral and material help in defeating the Kaiser's attempt to foment banditry and rebellion with a view to depriving the Entente Allies of Cuban sugar.

Scrip Wanted
 (From the San Francisco Chronicle)
 Gold has practically ceased to circulate in San Francisco, and there is a growing desire to see silver, except as subsidiary money, also disappear, so that the necessity of maintaining two receptacles for money on one's person may be abolished. If the standard dollars in the Treasury are melted down, those in circulation on the coast should be melted in and paper money of small denominations issued in their stead.

Clark For Senator—Why Not?
 (From the New York Herald)
 Out in Missouri the politicians already are speculating upon a successor to the late Senator Stone. It looks a little shabby, but Missouri politicians, after all, do not differ from others. Several aspirants are named. Persons familiar with conditions in the "Show Me" State say that the one man whose appointment for the unexpired term would prevent a factional fight of serious proportions is the present Speaker of the House of Representatives. Could Missouri have a better senator?

To Keep Prussianism Up
 (From the New York Herald)
 It is too early to assume that the German offensive has spent itself. The considerations which prompted the Kaiser and the lesser war lords to make this mighty effort to break the Allied line are still compelling. All hope for a German victory, with a German-made peace, will be gone unless it can be forced before America is able to throw its full strength in the scale. Undoubtedly, although the facts are concealed from the outside world, internal conditions in Germany and Austria-Hungary make it imperative for the still dominant Prussianism to drive on. If not victory, there must be victories for Germans to celebrate or Prussianism goes down forever.

So the Kaiser continues to pour Germans and Germans and still more Germans into the hopper of death. All honor to the brave men who are holding the line! They are fighting for our cause, they are battling that America may remain free. They hold the heart sympathy of all Americans. They must have every American dollar at their back.

Burian And His Homeless Task
 (From the New York World)
 Burian, the new Austro-Hungarian Foreign Minister and Finance Minister bore the same double burden when in 1915 he succeeded Herzfeldt in one office and Blumkin in the other. They had rebelled at Berlin (detestation). Burian was more reasonable. He made way in December, 1916, for Czernin, who now becomes scapegoat for Kaiser Karl's Alsace-Lorraine letter.

A picture of Burian drawn by former Ambassador Penfield describes him as a nervous man, perpetually agitated by the overturn of his plans "over the long-distance telephone" by "a master whose wish took precedence over any mandate of Baron Burian." He was described on the day of his dismissal by the German ambassador in Vienna as "a little fellow, not up to the needs of so exalted a position as Foreign Minister." Yet Burian had studied his craft in the Balkans.

As Minister of Finance, Burian presides over a treasury hopelessly bankrupt, with billions of irredeemable paper currency backed by only 1.1 per cent in gold and silver. As Foreign Minister he is a mouthpiece for Berlin when Clemenceau's revelations have made the Dual Monarchy a laughing stock. As a cabinet member he consults over the fate of a starving and ruined nation, which is kept from rebellion only by the menace of troops

withheld from the firing line. Helpless inhibition of impossible port folios!

A Task For an Ex-President
 (From the New York World)
 William Howard Taft has obtained a leave of absence from his duties as professor of law in Yale to devote all his time to the work of the Labor Commission, "whose duty it will be to mediate in all disputes between employers and employees in the business of war production."

No man is better fitted to do that work than the former President, whose dignified course and useful public labors since leaving his high post have set an example to all men in like position. Mr. Taft's knowledge of the law, his executive experience, his capacity for broad vision embracing both sides of a controversy, will all be useful in allaying unrest and thus securing the maximum of production for the men behind the guns.

Every man and woman in health can find something to do in this war. Nor is it beneath any one's dignity to attack any job, however vexatious, inconspicuous or difficult. Beyond the actual work he will do, Mr. Taft gives other men a hint for their own guidance when he sets aside a congenial life-work and its emoluments to devote himself entirely to the war task that is laid before him.

Some Loyal Methodist Laymen
 (From "Current Topics of the Town" in the Philadelphia Public Ledger)
 If John Wesley, who founded the Methodist Church, evidently with the purpose of making the Church safe for democracy, could have foreseen with what enthusiasm Americans of means and large affairs would support its tenets and promote its growth he would have been surprised.

Casually our insight into among Philadelphia Methodists William S. Milling, of the iron and steel firm of Milling & Crane; John Gebbel, president of the Baltimore Savings Trust Company; John J. Griffin & Co., and the Royal Electrotype Company; William H. Sheldrake, Mr. Bradley, the meat magnate, president of the Methodist Hospital; Charles Scott, head of Pennsylvania's Red Cross.

Alexander Simpson, Jr., has given more than \$100,000 to charities and built the Mary A. Simpson Church in memory of his mother. A member of this church and ex-Governor Stuart and Francis Shunk Brown. "Well, I've just come from the church your party built," he said to Mr. Brown.

"The latter" answered, "I had to atone for as much as Aleck Simpson had built four churches."

"Then you'd better get busy," interjected Mr. Stuart, with his contagious laugh. "You've got to build a whole stack of them!"

One of the liveliest Methodists hereabouts is "Tom" Armstrong, president of the Conkling-Armstrong Terra Cotta Company. He made the first speech against the gas lease in 1905 and subsequently became president of Common Council.

T. Conly Hunter of Frankford has done much to uphold the Methodist Hospital and the Frankford Hospital.

Honora T. Greenwood, of Greenwood & Hunt—one of the oldest drying firms in the city—is another Methodist philanthropist.

Robert Carson, the carpet manufacturer, is president of the Methodist Preachers' Aid Society.

RECEIVED NO BIDS FOR COAL SUPPLY

Three Bids for Repairs on Ward Room Are All Rejected.

For the first time in many years not a bid was found at City hall today for supplying the municipal building with 100 tons of coal in answer to the proposals advertised by the city and for the time being the supply for the winter of 1918-1919 is a question. Relative to the repairs on the city building or ward room on Maplewood avenue, three bids were received and opened and all rejected, owing to the fact that the bidders all bid on different parts of the required alterations.

The committee on public buildings and places will authorize now specifications on this work and another call for bids will be issued. The bids received for furnishing hose for the fire department were not opened up to noon.

POTATOES INSTEAD OF FLOUR.

Bread is the staff of life but you can make a very good crutch of potatoes. That is to say, the need of the human stomach for bread can be very largely satisfied by potatoes if the idea can be fixed in the mind that you aren't getting cheated of any necessary food material.

It is as much a war measure to eat potatoes at this time as it is to manufacture shells or give your money for the use of the government.

It is of vital importance to save wheat across the sea in the armies and the Allies. We are short of wheat; we have great quantities of potatoes. Potatoes are not such good travelers as wheat, consequently we must eat it here and send the wheat on its long, dangerous journey to the war zone where it will be received as a necessary factor of success.

The war cannot be won without food over there.

What is what, they must have, I what we must send. Eat potatoes in its stead, in America.

Mrs. Susan Townsend of Linden street is visiting in Boston.

BRIEF OUTLINE OF PROPOSED HEALTH ZONE

Expert Will Be in Charge, Laboratory Established and Inspectors Appointed.

Many questions have been asked by the public relative to the proposed health zone to be established here as a result of the several conferences held at the navy yard which have been attended by state health officials from New Hampshire and Maine and government medical men.

The object is to have the co-operation of the health boards and town officials of all nearby towns in enforcing the health rules of the respective places and if such rules are not sufficient to cope with conditions to have additional ordinances passed by city and town governments. The zone, when fully established will be under the supervision of a health expert to be appointed from the army, navy or civil life. He will have absolute charge and will be assisted by inspectors and probably district nurses from the Red Cross.

To facilitate the work a laboratory will be established in the zone in charge of experts.

The proposed zone will not in any way interfere with the duties of the present health officers unless there is proof that they are not enforcing the health rules and regulations.

The sum of \$12,000 is appropriated by the government so far for this work.

The officials of the surrounding towns have informed the naval medical men that they are ready to do everything possible to aid the government.

Many residents of Portsmouth had an idea that the reports made reflected on the city from the fact that they were not acquainted with the proposed workings of a health zone. The plans, if carried out, according to the naval and civil experts should be a great benefit, not only to the several thousand men at the navy yard but will establish better health conditions in Portsmouth and surrounding towns on both sides of the Piscataqua.

IRISH TO RESIST CONSCRIPTION

London, April 19.—The conference of Irish Nationalists, Sinn Feiners, O'Brienites and Laborites held in Dublin under the chairmanship of the lord mayor yesterday, unanimously passed a resolution declaring their determination to resist conscription. The resolution was similar to the one adopted by the Irish bishops at Maynooth earlier in the day. The conference then adjourned until Friday.

In their resolution the bishops declared conscription was going forward on Ireland and that it was an oppressive and inhuman law which the Irish people had the right to resist "by all means consonant with the law of God." The Irish clergy was directed to announce days for receiving contributions of money. Parish meetings will be held next Sunday to gain adherents to the resolution.

The authorities in Ireland are taking steps to deal with the situation, which to say the least, is threatening. For the first time in many years the Nationalists met the Dublin Sinn Feiners and their older enemies, William O'Brien and Timothy Healy, white labor representatives, who have not been very friendly to the Nationalists in recent years, were also present at the conference, which was held under the chairmanship of the lord mayor. The Sinn Feiners were loudly cheered when they arrived at the Mansion House.

The outcome of the conference was that a committee composed of John Dillon, Edward Devlin, Timothy Healy and a labor representative, with the lord mayor of Dublin, was appointed to attend the bishops' meeting at Maynooth.

The meeting also directed that public meetings should be held in each parish next Sunday at which a pledge should be administered in the words of the resolution. Masses of interest will also be held in every Catholic church.

Field Marshal Lord French, commander-in-chief of the forces in the United Kingdom, arrived in Dublin with his staff.

The Nationalists, or at least the majority of them, are understood to have decided to abstain from attendance in the House of Commons during the crisis, thus adopting the attitude of the Sinn Feiners who were elected to Parliament but have never attended.

The labor council at Sydney, New South Wales, has passed a resolution to send a cable message to Premier Lloyd George, requesting the British government to reconsider its decision to apply conscription to Ireland, says an Exchange Telegraph dispatch. The resolution says the conscription measure is unjust and would cause grave complications.

COLONEL ADAM GIFFORD IN PORTSMOUTH

Colonel Adam Gifford, head of the Salvation Army in New England, accompanied by Adjutant Starboard who, this week, returned from the front in France, will conduct the services at the local Salvation Army hall on State street this Sunday afternoon at 3.15 and 8 o'clock in the evening.

Adjutant Starboard will give some of his thrilling experiences at both of these meetings.

Captain Lawrence was only notified this morning that the Adjutant would accompany the Colonel otherwise a much larger hall would have been hired to accommodate the crowd that is sure to attend the meetings. "Come early to secure a seat" is sure to be the slogan.

FRANCE HAS LOST 1,300,000 MEN

Nearly as Many More Have Been Wounded or Taken Prisoners.

(City Assiglated Press)
 New York, April 19.—France in four years of conflict to preserve her own liberty and that of the world, according to M. Andre Tardieu, French high commissioner to the United States, has lost 1,300,000 men killed and almost as many wounded or prisoners. The high toll exacted by the war was made public by the French envoy today in an address at a meeting of the "Fatherless Children of France association."

Paraphrasing the work of the organization which already has raised more than \$2,000,000 in behalf of 50,000,000 French war orphans and stating that the French government has adopted 1,000,000 children bereft of fathers, M. Tardieu declared that German propaganda could not counteract the fact well known in America, that "all our hearts are united in a common affection."

"When men are dying," he said, "their one last thought is for their children. In close communion with the trials and aspirations of our people, you have given peace of mind to thousands of dying heroes. For having conceived this great and humane work you have won forever the affection and gratitude of all Frenchmen. It is with deep emotion that I bring you their thanks."

GOVERNOR KEYES TAKES A HAND IN BRIDGE MATTER

Promises to Assist in Every Way to Have Highway Section Rebuilt.

Governor Keyes has made known his interest in the matter of rebuilding the highway section of the Dover Pt. bridge. The governor rejects the attitude taken by the Boston and Maine railroad in stating that the corporation would not consider any reconstruction outside of the railroad part of the bridge swept away by the ice in March.

On this subject Governor Keyes sends the following letter to the mayor of Dover:

Hon. P. C. Smalley, Mayor, Dover, N. H.
 My Dear Mayor:
 I read with regret in the papers a report of an address by Solicitor Pierce of the Boston and Maine railroad in which he stated that the railroad could not undertake to rebuild the highway section of the Dover Point bridge which was swept away by ice last month. I fully realize the importance of this bridge as a part of one of our main line highway systems and I sincerely hope some way may be found of opening it to public travel as a free bridge. While of course, I do not know what you and the people of Dover may have in mind in the matter, I trust you will call me if there is any way in which I can be of assistance to you in this very important highway traffic problem.
 Yours very truly,
 Henry W. Keyes.

Governor Keyes made the following reply to the communication from the state's chief executive:

Hon. Henry W. Keyes, Concord, N. H.

My Dear Governor:

Your letter of April 5 duly received, and I thank you for your interest in the matter.

It is certainly of vital importance that this main thoroughfare be opened for travel, not only from a business point of view, but from a military standpoint as well.

We trust that if the United States government does not take favorable action in the matter that you will take measures to have the state of New Hampshire take action. In the meantime we will leave it to your judgment to adopt such methods as will bring about the quickest results.

Yours very truly,
 Fred C. Smalley, Mayor.

WILL PUT UP AT SOMERSWORTH.

The crew of the new train for the navy yard workmen from Somersworth and other stations on the Conway branch will run through to Boston on the Portsmouth and Boston express and milk train. Returning at 5 p. m. they will again take the Somersworth train with government workmen and put up at that station over night.

TO DOVER VIA MAINE.

Many people consider that the only way of reaching Dover from this city is via Rockingham and Newmarket. But as a matter of fact now that the roads are in good condition, the trip over the Portsmouth bridge and through Ellis is a rather shorter route and a very pleasant ride for motorists and many are now availing themselves of this route.

NOTICE

Half hour service on New Castle—Portsmouth Bus line will be discontinued until further notice beginning Monday, April 22nd.

MANY LETTERS CAME FROM PORTSMOUTH

Sergeant Plentje on Trial for Unpatriotic Sayings Was on Southery and Topeka.

During the trial of Sergt. Ernest L. Plentje at Camp Devens for alleged unpatriotic utterances considerable testimony came from letters said to have been written to a young woman in Cambridge while he was in the navy and stationed on the U. S. S. Southery at the Portsmouth navy yard, also the U. S. S. Topeka, the U. S. S. auxiliary prison ship.

One of the most startling bits of evidence introduced by the government was a United States naval record showing that Plentje had been discharged from the navy in March, 1915, for making a "traitorous and treasonable statement" in Portsmouth.

Ship's Cook Ernest Adams of the U. S. S. Southery, put on the stand by the government said he had heard Plentje say, "If the United States ever went to war with Germany he would sink his own ship before he would fire on a German one." Adams said he had testified to the same statement at a hearing on Plentje's case on board the U. S. S. Topeka when Plentje was a member of the U. S. navy.

The woman, who is a widow, and Plentje, are reported to have been friendly. In each of the letters he addressed her as "Dear Inez." In one of the letters postmarked December 27, 1917, he said "I played Santa Claus for the boys up here. They tried to get a picture of his imperial majesty and a copy of a book on how to become a citizen to give me, but they could not get either of them and I had the laugh on them. I am losing all my Teutonic strength."

Another letter postmarked Feb. 12, 1918, said "I seem to be in a perfect paradise. All cares and troubles are fading away and I feel like a world conqueror. Like the German Emperor must feel."

"Even I, strong Teuton that I am, feel a bit off today," was another sentence read from a letter with a postmark of January 9, 1918.

After testifying to his previous occupations, Plentje stated he had enlisted in the navy in June, 1910, and received an "undesirable" discharge in May, 1915. He said he served on the

U. S. S. Ozark during the Mexican rebellion in 1911, and that when he came north, was transferred at his own request to the naval prison ship Southery at Portsmouth.

He then referred to an argument in which he became engaged with other sailors in Portsmouth and said that he was later called before the acting captain of the U. S. S. Topeka and given an undesirable discharge from the service, but retained his rating as second class boatswain's mate.

Plentje declared he never was told why he was discharged from the service. He said he went to Congressman Peter Tague to be reinstated, and was afterward told by the congressman over the telephone that the "nature of the charges against him was such that he could not get back."

COMMISSIONERS CONFER AT CONCORD

Concord, April 19.—Every county in the state except Chittenden was represented at the annual meeting of the county commissioners of the state at the Merrimack county building, today. All the other counties sent full delegations except Rockingham and Cheshire, 25 of the 34 commissioners in the state being present. Arthur C. S. Baudett of Laconia was elected president and Edson H. Patch of Franconia, clerk of the association. Arthur H. Bittan of Concord was elected chairman and Ora A. Brown of Ashland, clerk of the executive committee.

The commissioners from Rockingham county who attended the meeting were Norman H. Beane of Portsmouth and William B. Underhill of Chester.

NOTES FROM THE NEWINGTON SHIP PLANT

President L. H. Shattuck is confined to his bed by illness.

Additional wood workers are being put to work every day.

It is hoped that the last visit of the hearing committee will bear immediate results.

There are signs of life at the Dover Point bridge.

Men at the plant are becoming enthusiastic to make a record and the news that a similar ship to the one being built here will be launched in Portland next week has awakened interest.

TO WITNESS LAUNCHING AT PORTLAND

Several people from the local ship yards went to Portland this morning to attend the launching of the first wooden ship on the North Atlantic. The "Andean" was scheduled to slide from the ways at five o'clock this afternoon. General Manager G. S. Rowles and G. G. Shedd of the Newington yard left to witness it.

OBITUARY

Eugene Cousens

The death of Eugene Cousens occurred at his late home on Clinton street Friday afternoon after an illness of only a few hours' duration, at the age of 43 years. The deceased was

a native of Portsmouth. He was a member of the Eagles. He is survived by a widow, one sister, Mrs. Michael Daley of this city, and two brothers, William, of York, Me., and Frank of this city. Funeral services will be held Monday morning.

Charles A. Caswell

News was received in this city this forenoon of the death from pneumonia of Charles A. Caswell, labor agent of the L. H. Shattuck line, which occurred at a hospital at St. Johnsbury, Vt., this morning.

The death of Mr. Caswell is heard with regret by all of his associates, as his kindly disposition and fine qualities made for him many friends. He has been connected with shipbuilding plants for some years and associated with the Shattuck Shipbuilding Co., since last August. He resided in Waterville, Vt., and leaves a wife, mother and sister.

THE HERALD HEARS

That most any mechanic who knows shipbuilding is required at the Atlantic corporation.

That the county farm has jumped the price of board of the paid inmates.

That many knitting bags are now handy on shopping tours.

That Portsmouth needs a police force in numbers as well as in name.

That nearly all the new steel needed on the Portsmouth Street railway between Haymarket Square and Miller avenue has been laid.

That some members of the local fire department were guests of the Kiwanis department on Friday evening.

That the house moving fraternity still keep the police busy at Dover.

That after holding up the public for toll for the past 30 years, the Boston and Maine now washes its hands on the matter of rebuilding the highway section of the Dover Point bridge.

That there appears to be no rush to bid on the coal supply for city hall.

That Francis E. Drake of Cleveland will shortly open his summer home at Ilye.

That the Cottage summer residence at Little Harbor may not be opened by the family the coming summer.

That the men from Dover who work nights at the shipbuilding plants and navy yard are out with a kick on the train service.

That they find much fault from the fact that they are obliged to wait in this city until 8.45 every day for the homeward trip via Rockingham Jet.

That they have put it up to the ship yard officials for some relief.

That the ship yard officials should put it up to the government to get the Dover Point bridge rebuilt at once and prevent delays of government workmen at Dover and Portsmouth.

A package containing \$41 was discovered about the street of Vinton, O., for nearly a day before it was picked up and examined as to its contents.

of Neponset has come to an end. In that time the sales amounted to many hundreds of yards. Customers told their neighbors of their profitable investment. The latter took the hint and bought.

This proves all that we and the makers of Neponset have said about it. It proves that people have confidence in goods that go through practical tests with credit. It proves that in these days of H. C. L. there is such a combination as low price and good quality.

Owing to the unprecedented demand for Neponset, we shall continue the sale until Wednesday night, April 24. The cash price is the same—54 cents for this 75-cent grade, while it lasts.

DECISIVE POINT ONLY NOW WITHIN SIGHT

Ottawa, April 19.—One of the foremost French generals, who commanded the three French divisions in the heavy fighting previous to April 7, declared unreservedly to Reuters' correspondent with the French armies that there was nothing disquieting in the present battle situation. The correspondent's despatch quotes the general as follows:

"The course of this battle, like all others, was essentially the same. Each side would continue to ply blow and counter-blow, endeavoring by weight of numbers or superior skill to find the weak points in the enemy's armor and each endeavoring to retain sufficient reserves to turn the scale when the decisive moment was reached."

"After four years we are now only within sight of this decisive point. The Germans have still got in France unused reserves and fresh divisions. The battle will proceed and the next shock must be expected as soon as the flood pouring in through Belgium up towards Hazebrouck is checked. The battle may continue a month or more, but the Entente will continue until the enemy reserves are exhausted and his numerical superiority worn down to the vanishing point. Then our turn will come, with the help of American divisions."

Are You Doing Anything To Help Win The War?

The Fuel Administration says we must save Fifty Million tons of coal in 1918. They say the kitchen range is largely responsible for the coal shortage last year. Estimates show the average family uses about 1000 pounds of coal monthly for cooking. To produce gas for the same amount of cooking only about 300 lbs. are used at the central station. You must realize that by the use of gas you are helping save the coal. We are always ready to show you how you can save both coal and money by the use of gas.

CITIZENS DO NOT NEED PASS-PORTS.

New York, April 18.—Advices received from Ottawa say the Canadian immigration authorities have revised governing travel from the United States to Canada during the war.

American citizens or citizens or subjects of entente and neutral countries are not required to have passports. It is stated, but persons of enemy countries may not enter at all, although those born in enemy countries but who have been naturalized in countries friendly to Canada may enter if they produce naturalization papers, endorsed by a British consul in the United States.

Male travelers between the ages of 18 and 45 are asked to obtain non-residence cards from Canadian immigration inspectors when and where they enter Canada, so as to facilitate their departure.

PORTSMOUTH HIGH GIRLS WIN DEBATE

In the debate which was held at Dover Friday night in the assembly hall of the Dover high school, the girls of Portsmouth won the question, "Resolved (that) the initiative and referendum should be adopted by the state of New Hampshire." Dover took the negative, while Portsmouth had the affirmative.

The Dover team comprised Virginia Smalley, Edna Childs, Esther Young, Helen Layne, alternate; Portsmouth,

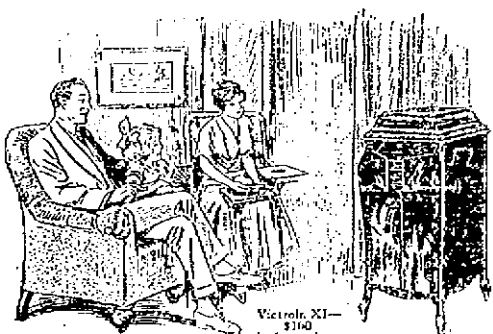

Hazel Manning, May Jackson, Dorothy Handlett and Charlotte Tremder. The judges were Charles H. Brock, superintendent of the Rochester schools; Gilman J. Campbell, principal of the Rochester high school; and Principal Gray of Derwick Academy.

OBSEQUIES

Miss Clarissa Tarriss Haven. The funeral services of Miss Clarissa H. Haven were held from St. John's church, Friday at 12.30, the Rev. Nelson Kellogg officiating. Interment and committal services were held at Mt. Auburn cemetery, Cambridge, Mass., under the direction of J. Verne Wood.

Miss Bertha Martin is passing a week in Boston.

TENTH REUNION CLASS OF 1908

Banquet at Woman's Building; All Officers Were Present.

A gathering to be pleasantly remembered by the participants took place at the Woman's Building on Middle street last evening, the occasion being the reunion and banquet of the class of 1908, Portsmouth High school.

Although the affair was planned in a comparatively short time, it was most gratifying to those in charge of the arrangements that there was such a ready and general response to the invitations and the affair was a success beyond all expectations.

The reception room of the house was prettily trimmed with jonquils and pine boughs, while the American flag was prominent in the adornments. Tables were arranged here for the banquet, daintily set with blue and white china and vases of jonquils, the class colors, blue and gold, being carried out in the decorative scheme. The place cards were each tied with a knot of blue and gold ribbon and each paper napkin held in place by a flag pin.

After all and arrival, and cordial greetings exchanged, the company took places at the tables, covers being arranged for 27. The menu served was fitting for the occasion and was as follows: Tomato bisque, baked halibut, roast turkey, mashed potatoes, boiled onions, fruit salad, rolls, assorted cake, ice cream, coffee.

The class officers and a representative number of class members were present, also the husbands or wives of several of the married members who attended the reunion. The class officer, written for the commencement by Mrs. Mildred Coes Wasson, the music being arranged by Mrs. Heloise Whittier Paul, was sung before all were seated. The evening was filled with good cheer and sociability and many reminiscences of school life were topics of conversation. During the evening telegrams of greetings were sent by the class to several absent members.

While the addresses of several members of the class are not known, all of its members are living. Three are "Somewhere in France" serving their country; some others are employed at shipping plants or navy yards, while several young men of the class are soon to enter the service.

At the conclusion of the banquet dancing was enjoyed by the gathering and at a later hour all left for their homes after an evening of delightful associations.

Since graduation a number of the class members have entered the matrimonial state but the list of the class as it appeared on the commencement day program of ten years ago is as follows: Ethel B. Anderson, Inez M. Gray, Winifred Hodgdon, Dorothy Philbrick, Frances Dullmer, Heloise L. Whittier, Ruth A. Yeaton, Marion L. Hanna, Helen B. Waldron, Dora A. Walker, Marion D. White, Anna G. Winslow, Lydia M. Lamonde, Mabel E. Little, Mary C. Leach, Mary J. McInnis, Mary L. Phelan, Marion E. Turlington, Mildred P. Coes, Annie M. Coes, Ellen V. Harvey, Alice M. Morrison, Annie B. Mundelein, Hattie P. Richardson, Keith A. Wood, George A. McPheters, James Shaw Newton, George T. Rann, Charles H. Brackett, Harry J. Cronin, Philip L. Gowen, Frank A. Jenness, Thomas J. Quinn, Matthew Helton, William T. Cull, Stephen H. Grant, Samuel P. Griffin, Maurice A. Jenness, Sidney Rand, Burton E. Rokes, Harold Russell.

The class officers were: President, Keith A. Wood; vice-president, Heloise L. Whittier; secretary, Marion D. White; treasurer, James Shaw Newton.

Those present were the following: Mr. and Mrs. Keith A. Wood, Chicago; James Shaw Newton, New York; Dr. Haven T. Paul, Mrs. Heloise Whittier Paul, J. Verne Wood, Mrs. Marion White Wood, Frank L. Wasson, Mrs. Anna Winslow Wasson, Mr. and Mrs. Charles Brackett, Harry Berry, Mrs. Dora Walker Berry, Ralph Berry, Mrs. Annie Goss Berry, Mr. and Mrs. Sidney Rand, Roy Littlefield, Mrs. Marion Ham Littlefield, Winifred Hodgdon, Marion Turlington, Mabel Little, Alice Morrison, Inez Gray, Mary McInnis, Mary Leach, Thomas Quinn, Dr. Samuel P. Griffin, Dr. Harry Cronin, Harold Russell. Other members of the class who are now away from Portsmouth are: Matthew Helton, Philip Lewis Gowen and Burton E. Rokes.

"Somewhere in France": Frank A. Jenness, Wallaston, Mass.; Ruth A. Yeaton, on teaching staff of Mt. Holyoke College; George A. McPheters, physical director at High school, Melrose, Mass.; George T. Rann, with Standard Paint Company, New York City; Mrs. Mildred Coes Wasson, Brunswick, Me.; Ellen V. Harvey, Boston; Hattie P. Richardson, California.

The class of 1908 held its commencement exercises at Music hall on Thursday afternoon, June 13 of that year. Its motto was, "Let us do well or nothing."

The exercises opened with an invocation by the late Rev. Henry H. Hayes, followed by the singing of "Dixie's Chorus" by Wagner. Sam Walter Foss of Somerville, Mass., the late popular poet, and a son of Portsmouth, gave an able commencement address, his subject being "The Man Who Comes up From the Crowd."

The school was presented with a large framed picture of the capitol at Washington as a class gift, the presentation being made by Keith A. Wood, in behalf of the class.

At Freeman's hall on the same evening, the class held its reception and ball, a fitting finale for the day of days in its school life.

The class motto chosen ten years ago must certainly have inspired its members with zeal and the responsible positions many of them now hold show they achieved success by having their motto, "Let us do well or nothing" ever before them.

Mrs. Heloise Whittier Paul and Mrs. Marion White Wood were in general charge of the arrangements of the reunion.
